## **PAH Calibration Set Discontinued**

### **PAH-CVS-A and Support Solutions (PAH-LCS-A, PAH-ISS-A, and PAH-STK-A)**

Unfortunately, PAH-CVS-A and its associated products (PAH-LCS-A, PAH-ISS-A, and PAH-STK-A) have been discontinued. However, **PAH-CVS-B** and its support solutions (**PAH-LCS-B**, **PAH-ISS-B**, **PAH-SS-B**, and **PAH-STK-B**) are already available as improved alternatives containing additional native and mass-labelled polycyclic aromatic hydrocarbon (PAH) analytes of interest.

The additional compounds in the PAH-CVS-B series include 2-Methylnaphthalene, Benzo[c]fluorene, Benzo[e]pyrene, Perylene, 2-Methylnaphthalene-d<sub>10</sub>, and Perylene-d<sub>12</sub>.

We apologize for any inconvenience this may cause and appreciate your understanding.
